

HRF020

Travel and Driving Periods

Many collective agreements (for the metalworking industry, etc.) include specific processing regulations for travel and driving periods. The entries and calculation of the results is not possible as a matter of course in SAP Standard and requires the traveller and the person entering the data to have specific business knowledge.

Solution Description

With the HRFORCE-Solution "Travel and Driving Periods", the travel and driving periods incurred during a business trip can be processed directly via SAP ERP Travel Management.

This solution is realised in the standard version of SAP ERP Travel Management via user exits and user expansions.

Implemented Functionalities

DISPLAY OF TRAVEL AND DRIVING TIMES

Travel and driving times are administered via its own index tab in transaction trip. Computation and payment of these additional services may take place via travel expenses.

TRAVEL AND DRIVING TIMES STATEMENT

Payment amounts can be made in accordance with the various collective agreement rules. Results can be displayed as their own document type with the travel documents.

INDIVIDUAL FEATURES

The employees can be assigned to and excluded from the separate rule via features.

Client Advantages

Display of the collective agreement requirements regarding travel and driving periods

Calculation included in standard travel process

Assessment rates and basics controlled by tables

Payment by wages/salary or business travel statement

Transfer to wages and salary via SAP Standard Travel Management interface

All the costs of one trip are available at a glance.
