EPI-USE Query Manager

The Partner-Solution EPI-USE Query Manager now enables you to compile queries with a few clicks, arrange them graphically and distribute them according to target groups.

Solution Description

Do you have to extract accurate, meaningful and real-time information from all your SAP ERP HCM and Payroll data every day?

Then you need Query Manager, a powerful, user-friendly and flexible reporting solution.

It provides easy access to all data users need, empowering end-users to create their own reports in SAP without reliance on technical resources.

Used by thousands of people around the world, Query Manager was developed as a solution for business and HR leaders to facilitate professional HR reporting.
