SuccessConnect in Las Vegas (October'2023)

What an amazing & inspiring week at SAP #SuccessConnect in Las Vegas at The Venetian Convention Center it has been!! 🤖🚀🌍🎉

Here is my **Top 3 take-aways for the week:**

#1 - **SuccessConnect** is the place to be when it comes to HR digital transformation projects on a global scale. Our momentum is really great: the agenda was packed with customer panels, product demonstrations, and roadmap sessions. Never have we had more solution announcements than this year. Great to hear **Josh Bersin** underlines clearly that **SAP SuccessFactors** is leading the field. Our new releases on **#GenerativeAI**, **#Joule** and **#TalentIntelligenceHub** are spot on - relevant, responsible and reliable and ready to use now. Check it out!
<https://lnkd.in/d/fsMkki7>

#2 - **People & Network:** what a inspiration to meet, listen, learn and exchange ideas with customers and partners from across the globe. Plus it was so cool to see so many of the SuccessFactors colleagues from around the world in person - have a Starbucks coffee, chat, share & bounce ideas. Nothing beats live!

#3 - **Las Vegas:** the city left me stunned again. And tired! 😴 The sheer size of everything, the energy in town, the bling-bling in the casinos and on the streets, everywhere - 24/7. The levels of investment currently (most recently 2.1Bn Dollars into **#TheSphere** and 4.9Bn in **#WorldResorts** Hotels) are mind-blowing - there is an absolute economic boom! And in one month Formula 1 GP is coming to Las Vegas - putting the spotlight on the city in a whole new way and having prices soar to unprecedented highs for certain. Impressive!

Thanks to **Aaron Green**, **Maryann Abbajay**, **Siva Sundaresan** and to the entire organizational team on making this special SuccessConnect 2023 a reality. Thank you to the customers and partners for the curiosity, engagement and trust.

One more thing... 😊

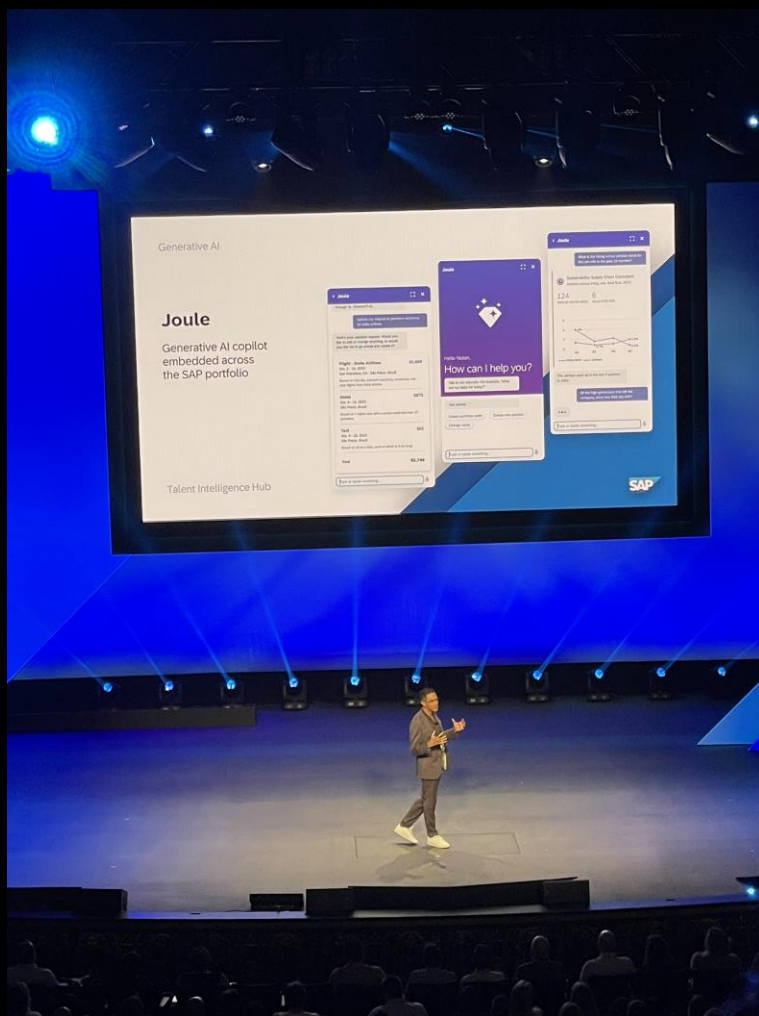

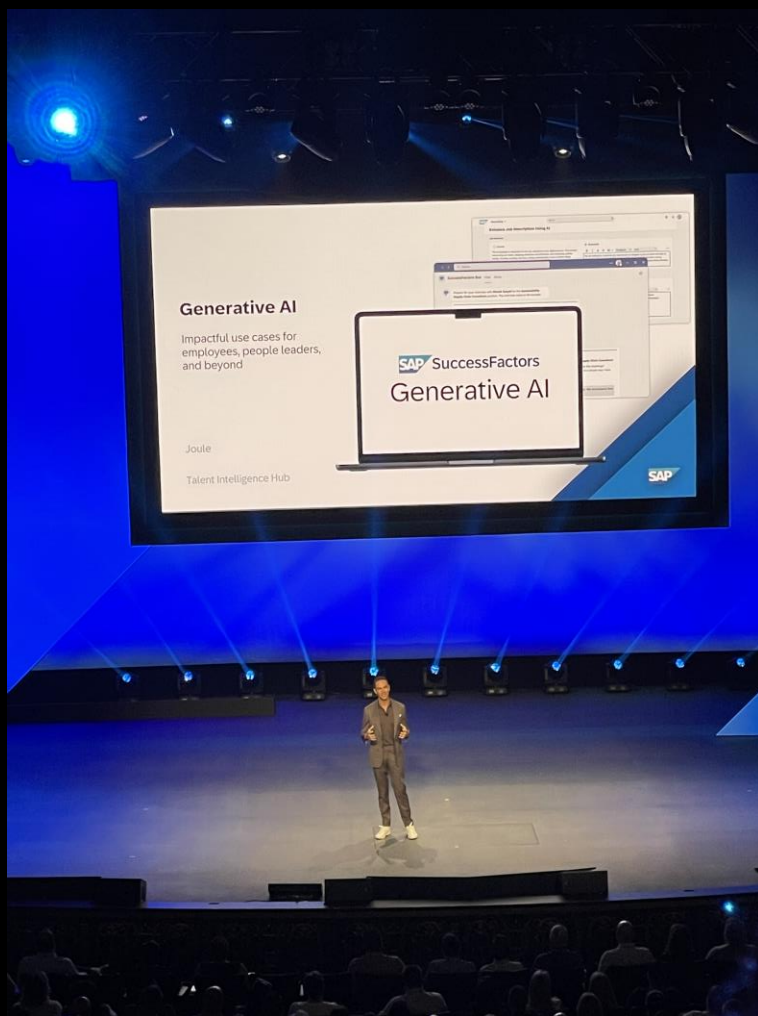

October, 28-30 **#SuccessConnect** is coming to Europe and will take place in **Lisbon, Portugal**. Mark your calendars already now! See you there 🌍

SAP Business AI powers your most critical business processes

Where is AI being used in SAP SuccessFactors solutions?

Predictive

AI and ML technology that analyzes HXM data to make personalized recommendations

Ex: Talent intelligence hub, Job Analyzer, Career Explorer

Generative

Generative AI combined with the context of business data and business processes in the flow of work

Ex: AI-powered writing assistant, Interview question generation

Conversational

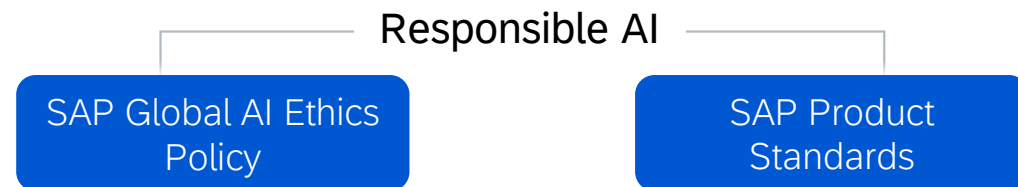

AI-driven chatbot that uses natural language processing (NLP) to understand and provide answers to many requests or perform certain tasks

Ex: SAP Digital Assistant

How SAP ensures data privacy for artificial intelligence solutions

Responsible AI

To ensure we build ethical, responsible, and trustworthy AI technology, SAP maintains an **AI ethics policy** and guiding principles, as well as an **AI Ethics Advisory Panel**. The SAP AI Ethics Advisory Panel is an external body made up of policy and legal experts from universities and organizations, such as Georgetown University and ICANN.
